APMHA HealthCare Ltd

APMHA HealthCare Ltd (APMHA) was established as a Not For Profit company in July 2019 and has evolved from the Victorian Primary Mental Health Alliance Pty Ltd. The change to a Not For Profit entity better reflected the values and benevolent focus of APMHAs mental health programs for under-served, priority populations.

APMHA provides intake, triage, allocations and clinical mental health services for a variety of funders through nominated program streams across Australia. Our focus primarily evolves around primary mental health care.

Our funders include Primary Health Networks, State Government, NDIA, MBS and others. Our partners and clients include government, community health services, PHNs, private mental health practitioners, community and private sector organisations and various peak bodies.

APMHA is governed by a Senior Leadership Team, an Executive Team and a Board of Management.

APMHA has three critical Board Committees which provide an avenue for input and advice by the senior leadership team into strategy and business development. These committees include:

- Executive and Leadership Committee
- Clinical Governance Committee
- Finance, risk and audit Committee

The APMHA HealthCare Model:

APMHA offers employed, secondment and sub-contract arrangements for clinical and non-clinical workforce it engages to ensure a national footprint of highly qualified mental health professionals. APMHA HealthCare has developed a Service Delivery Framework to reflect a Stepped Mental Health Model of care which sets out the strategic direction of the Company, the funding it has been awarded and the partnerships it has forged.

APMHA has developed relationships with providers who focus on health promotion through to acute services, to ensure the mental health stepped care is realised and clients are linked and transitioned within a seamless system and minimisation of duplication of service delivery.

About stepped mental health care:

- A stepped care approach to mental health promotes person centred care which targets the needs of the individual. It recognises that the individual's needs may change at any time and allows for flexibility for people to move across service levels to support their recovery.
- In a stepped care approach, a person presenting for support, is matched to the intervention level that most suits their current need. An individual does not generally have to start at the lowest, least intensive level of intervention in order to progress to the next 'step'. Rather, they enter the system and have their service level aligned to their needs.
- Clients receive care commensurate to need, this being determined by the health professional in consultation with the client and the client's GP.

The key features of the APMHA service delivery framework are:

- Timely response to referrals and allocation to an appropriately skilled and located provider
- Provision of evidence based therapeutic interventions for severity / acuity step type and presentation

- Allocation of service sessions commensurate to need (acuity / complexity - risk stratification)
- Collaboration and partnership with general practice
- Integrated care approach focusing on the clients trajectory for recovery
- Transition of clients up / down stepped mental continuum seamlessly and supported

IN OUR WORK WE VALUE:

- Lived Experience
- Collaborative Leadership
- Community
- Integrity
- Respect
- Innovation through passion

VISION

An accessible primary mental health service working in collaboration to support people with a mental illness to reclaim wellbeing and live a contributing life.

We will achieve our Vision through a commitment to embrace and live our Values.

People with lived experience
 People with lived experience are the heart and soul of our Company. They are the reason we are here and we are honored to walk alongside them.

Collaborative Leadership
 We believe in the power of working together in a collaborative way. Every function and every role is as important as each other.

Community
 We are proud to work closely and be part of all communities we work and live in. We embrace and welcome all cultures, diversity and individuality.

Integrity
 We do what is right. We are honest and ethical, worthy of trust of others. It is the price of entry to our Company and will guide our decision making.

Innovation through passion
 Passion and creative thinking inspires innovation in our service delivery. We seek and value team input into service improvement which provides meaningful benefits to our clients.

Respect
 Respect guides the way we operate at all levels, with clients, partners, funders, stakeholders, the community and our staff.

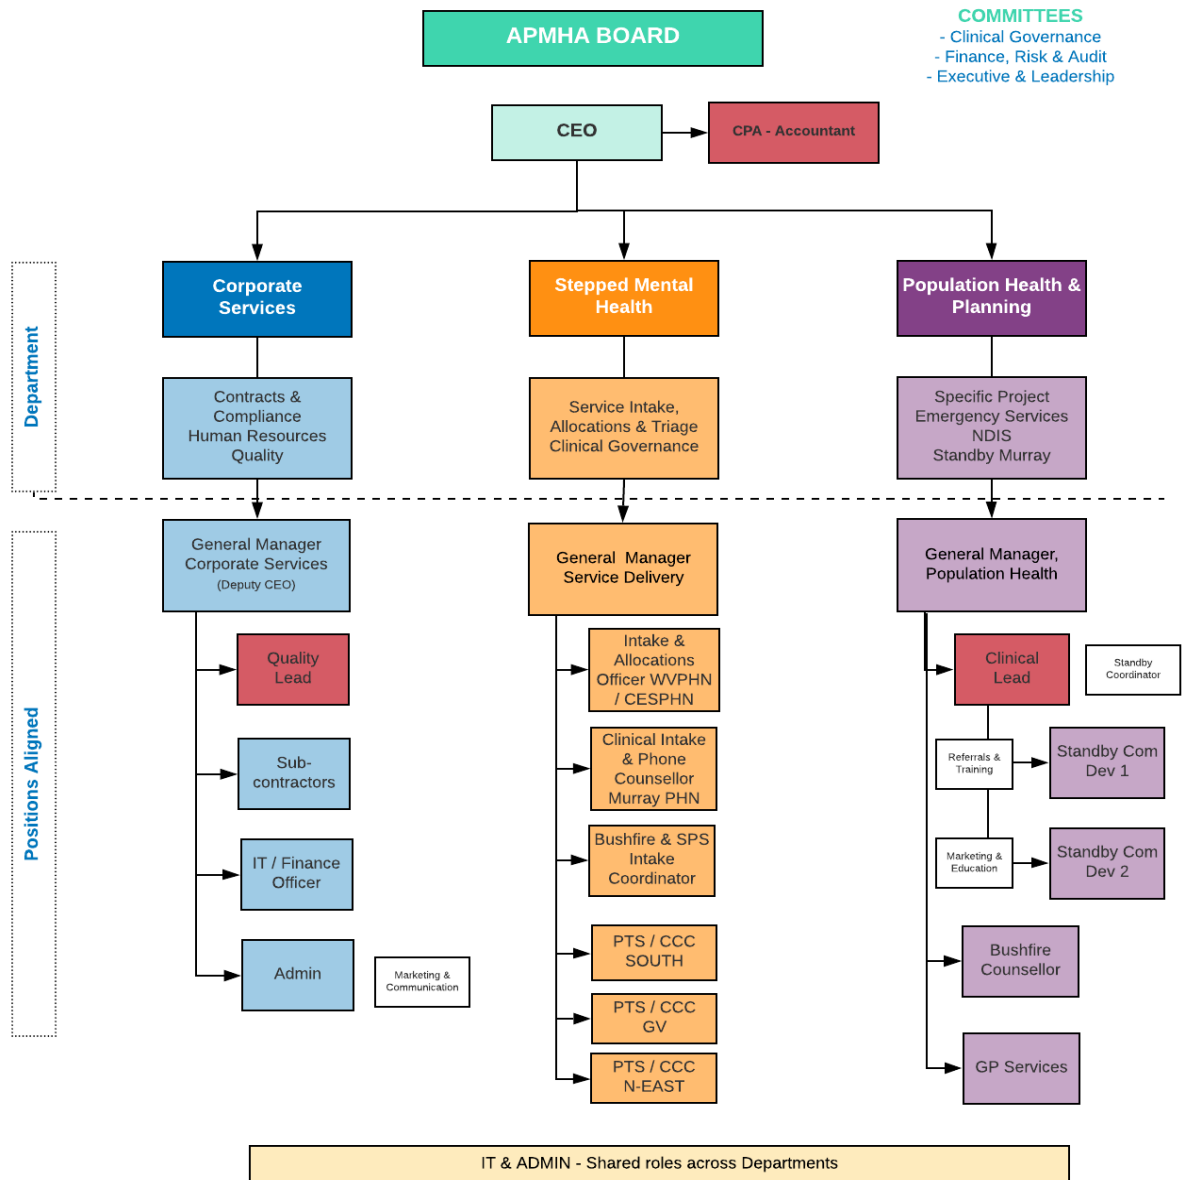

At APMHA we don't just value diversity we celebrate it. We are committed to providing an inclusive working environment that embraces all individuals.

Our Vision is to be the leading primary mental health service across Australia. We will achieve this through a commitment to embrace and live our Values

MISSION

To lead primary mental health care through the delivery of accessible, high quality services in partnership with the client, supporting their mental health, wellbeing and facilitated recovery
